The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filled after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 2. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Bates et al. (U.S. 6,179,859).

As to claims 1-16, Bates et al discloses in figures 1, 3B, 4A, and 4B, a mandrel (50) having a stop (51) disposed thereon; a filter element (60) having proximal and distal sliders (62,65), wherein said sliders (62,65) being slidable along the mandrel (50) independently of one another (see col. 6, lines 24-34); wherein the stop (51) disposed between said proximal and distal sliders (62,65) and can abuts said proximal and distal sliders (62,65); and further comprising a control sheath (20), wherein the filter element (60) collapsed within the sheath (20) with the proximal and distal sliders (62,65) spaced from one another (as described in figures 3B and 3C).

As claims 17-20, Note in (col. 6, line 54-col. 7, line 16), wherein Bates et al discloses the method steps of deployment the filter element. Base on the

Application/Control Number: 10/084,263

Art Unit: 3731

method steps as described by Bates et al above. Bates et al device is clearly capable of performing the method steps as claimed.

3. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Gilson et al. (U.S. 6,336,934).

Gilson et al discloses in figures 28-31, a mandrel (2) having a stop (64) disposed near the distal end of said mandrel; a filter element (1) having proximal and distal sliders (65,50), wherein said sliders (at 65,50) being slidable along the mandrel (2) independently of one another; and further comprising a control sheath (3), wherein the filter element (60) collapsed within the sheath (3) with the proximal and distal sliders (62,65) spaced from one another.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin T. Truong whose telephone number is 703-308-3767. The examiner can normally be reached on Monday-Thursday from 8:00 AM to 6:00 PM..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mike Milano can be reached on 703-308-2496. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
